

Long Time Coming

It had been a long time coming, with the prophets saying look for the Messiah
Whose gonna change the way we're thinking
Bout our God who raised up so many times, though we denied Him
And forfeited His love

Oh could you imagine, if the God that made the heavens
Came to walk among us, just to clarify His love
For the years that came before Him, and the thousands that are far away
His love shall remained
But through a man, that love will never look the same

I hear people asking why the God of Miracles now is so quiet
As the world around us tumbles
An apathetic deity must care not for His creation
And would leave them for the lions

Oh can you imagine that the God that made the heavens
Came to walk among us, just to clarify His love
To those looking for direction to those looking for a miracle
I say the work on the cross was evidence enough

I'm humbled by the thought, that worthy to be bought
Was my soul on the cross
No greater love this world will know
For many lives He gave His own, so that they might find
Eternal peace and joy at the foot of His throne

Oh could you imagine, if the God that made the heavens
Came to walk among us, just to clarify His love
For the years that came before Him, and the thousands that are far away
His love shall remained
But through a man, that love will never look the same
