

Same Words New Song

Same words new song
Everything's been said everything's been done
All that you might have heard or seen hanging on the wall
Nothings new anymore
The same words new song

Make your canvass something beautiful
Sign your name to prove its your
Count that money sign those papers
Make it big but be assured
We're singing the same words

Write that story about love so deep
And passionate that we all cry
Now a second just to prove you're here to stay
Chase those dreams but keep in mind

We're singing the same words new song
Everything's been said everything's been done
All that you might have heard or seen hanging on the wall
Nothings new anymore
The same words new song

I sit alone trying to find new words for this song
But even that's been done
Even that's been done
